

City Index Updates Award-Winning Spread Betting & CFD Trading iPhone™ App

New features include powerful live charting and live news feeds from Dow Jones Newswires

13 December 2010, UK, London - City Index (<http://www.cityindex.co.uk/>), a global leader in spread betting, contracts for differences (CFDs) and margined foreign exchange, today announced the release of the new version of the industry's first and multi award-winning iPhone™ [spread betting](#) and CFD trading application, City Trading™. The update further cements City Index's place at the forefront of mobile trading.

City Trading™ was first launched by City Index in October 2009, providing clients with full and secure access to their trading accounts on their mobile.

The new version of the app, which is available to download for free from the App Store, features a variety of new additions. These include one of the most powerful live charting packages on the market, developed internally by City Index's team of [mobile trading](#) technology specialists. The enhanced spread betting and CFD trading app will also feature exclusive live news feeds from Dow Jones Newswires.

With fast-moving financial markets, it is crucial that you have access to your spread betting and [CFD trading](#) account whenever you want, wherever you are. City Index offers its clients access to 24-hour live prices on thousands of global markets through its multiple [mobile trading platforms](#), including iPhone™, Blackberry, Java and Windows Mobile devices.

Helen Wylde, Global Head of Marketing at City Index, said: "Mobile trading is the future of this industry and we are delighted to be leading the way. Since the launch of City Trading™, we have listened carefully to our clients' feedback and the new features in this update will reflect that. We look forward to building on the success of the iPhone™ app and will, in due course, be announcing new products for other mobile trading platforms, including our application for the Android."

Joshua Raymond, Market Strategist at the [spread betting](#) and CFD trading provider, said: "Since the release of City Trading™, the percentage of total trades placed on our mobile platforms has risen from less than 3% to 15%, which underlines just what an impact the City Trading™ app has had on traders' behaviour. With the addition of the most powerful live charting package available, as well as newsfeeds from Dow Jones Newswires, we hope that clients will continue to benefit from the most comprehensive mobile dealing offering on the market."

The new version of City Trading™ app is available for free from the App Store on iPhone and iPod touch or at <http://www.itunes.com/appstore/>.

For more information on City Trading™, the iPhone™ spread betting and CFD trading app from City Index, visit <http://www.cityindex.co.uk/trading-platform/iphone-trading-platform.aspx>.

Contracts for difference (“CFDs”) trading, spread betting and margined foreign exchange carries a high level of risk to your capital with the possibility of losing more than your initial investment and may not be suitable for all investors. Ensure you fully understand the risks involved and seek independent advice if necessary. Please note lower deposit rates could allow you to increase your risk.

About City Index Group

City Index Group is one of the leading global providers of retail trading services, transacting in excess of 1.5 million trades per month for the group’s clients around the world.
