Each jurisdiction has its own rules for defining tax residence, and jurisdictions have provided information on how to determine if you are resident in the jurisdiction on the following website: <http://www.oecd.org/tax/automatic-exchange/crs-implementation-andassistance/tax-residency/>. In general, you will find that tax residence is the country/jurisdiction in which you live. Special circumstances may cause you to be resident elsewhere or resident in more than one country/jurisdiction at the same time (dual residency). For more information on tax residence, please consult your tax adviser or the information at the OECD automatic exchange of information portal mentioned above.

The objectives of CRS are to ensure transparency of tax obligations for all persons and to facilitate notification to the relevant tax authorities.

Under the CRS, SFP is required to identify their account holders who are tax residents of other reportable jurisdictions. Relevant account information of these account holders would be reported to the local tax authorities, who would in turn exchange the information with the tax authorities of the participating jurisdictions where the account holders are tax residents.
