

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT, THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM.

ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THAT THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ALSO ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OR TO THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS.

The examples presented on this page are only to be regarded as a technical demonstration when used with the trading system. Other material factors that may impact your performance compared to hypothetical results shown on Capitalise.AI

There might be a delay between the time the request is sent from Capitalise.ai and your trade and/or orders being executed in your FOREX.com trading account. The trading strategies are generated through an algorithm (technologically based formula) using the pricing data provided by your broker. Please be aware that pricing and spreads might be different between live, demo, and your type of account. The algorithm is designed to provide a historic pattern of price movement of products, based on certain

market conditions. Hypothetical or historical performance results have many inherent limitations. The actual percentage gains/losses experienced by investors will vary depending on many factors, including, but not limited to: starting account balances, market behavior, the duration and extent of investor's participation in the specified system and money management techniques. The price feed which is used to perform back test results is a composite feed provided by Capitalise, which may vary from the tradable price feed relative to your account. This also does not factor in additional trading costs such as commissions. Because of this, actual percentage gains/losses experienced by investors may be materially different than the percentage gains/losses as presented on this page.

There is no warranty or representation made that you will or are likely to achieve profits or losses similar to those shown in connection with this service and or strategies. In fact, there are frequently sharp differences between hypothetical or historical performance results and the actual results subsequently achieved. Actual returns may be different from any hypothetical, historical, or indicative returns shown in connection with this service.
